## **ConocoPhillips Sweeny Complex Emergency Alarm System Test**

The ConocoPhillips and Chevron Phillips Chemical Company Sweeny Complex Radio Group will be testing the Sweeny Complex and Terminal Emergency Alarm Systems. The tests will be conducted to verify that all the functions of the alarm system are working as designed. The Alarm System testing period will occur from **Monday April 20, 2009 through Wednesday April 22, 2009.**

### **Monday 4/20/09**

**At Noon, the normal Emergency Alarm System test will be conducted at our San Bernard Terminal.**

**At 12:15pm, the ConocoPhillips Emergency Alarm System will be tested at our San Bernard Terminal with a Public Address announcement of the test.**

### **Tuesday 4/21/09**

**At 7pm the normal Emergency Alarm System weekly test will be conducted on the Old Ocean Community System.**

### **Wednesday 4/22/09**

**At 12:00 noon, the normal weekly test will be conducted. At 12:10pm the Sweeny Complex Refinery will have an additional Public Address announcement and a test of The Waste Water Treater Number 2 Gas Release alarm after the weekly noon time test.**

**The test will be concluded with the announcement: "This concludes the test of the Waste Water Treater Number 2 Emergency Alarm System."**

If you have any questions, please contact the **Sweeny Complex Community Awareness and Emergency Response Hotline at 979.491.2237.**
