**For Electrical Reconnects property must be open for inspection.**

***Understanding Your Electrical Reconnect Permit***

Before the power can be turned on, an inspection of the interior and exterior of the building must be performed. The Building Inspector must have access into the building. Upon completion of the approved inspection, Texas New Mexico Power will be notified by the City of Sweeny. Your provider will need to contact Texas New Mexico Power.

If your inspection is not approved, the appropriate corrections will need to be made. A re-inspection will need to be scheduled.

A reconnect permit is required each time there is a name change on the service statement, disconnection of service, or change in electrical providers.

**The City of Sweeny neither turns on your power,  
nor do we schedule your power to be turned on.  
Please contact your provider for this information.**

**\*\*\*New businesses will need to apply for a  
Commercial Certificate of Occupancy before opening for business\*\*\***
