How to apply for assistance

Residents and business owners can begin the disaster application process by registering online at www.fema.gov. or by calling 800-621-FEMA (3362) or 800-462-7585 (TTY) for the speech and hearing impaired. The toll-free numbers are available 24 hours per day.

Applicants registering for aid should be prepared to provide basic information about themselves (name, permanent address, phone number), insurance coverage and any other information to help substantiate losses.

Transitional housing assistance

FEMA has activated its transitional sheltering initiative to allow eligible Ike evacuees from Texas, who cannot return to their homes, to stay in hotels or motels until it is safe for them to go home. FEMA will pay for the lodging directly to the hotels and motels. A listing of participating hotels is available online at www.FEMAEvacHotels.com. If an

individual is staying at a hotel that does not participate in the program they are asked to hold their receipts and FEMA will assist them *FEMA press release, September 15, 2008*

To ensure reimbursement evacuees first need to apply for federal assistance through FEMA either online at www.fema.gov or by calling the FEMA toll-free call centers at 800-621-FEMA (3362), TTY 800-462-7585. Eligible evacuees must fit the following criteria:

1. FEMA must be able to verify the identity of the evacuee;
2. The primary residence of the evacuee must be in one of the counties that has been designated a disaster area; and
3. The primary residence is inaccessible or unlivable due to damage or lack of power.

This assistance is intended to provide a more appropriate extended sheltering environment to evacuees who cannot return home because their neighborhoods are inaccessible or because their homes are unlivable due to damage or lack of power. The initial period of assistance is from September 14, 2008 to October 14, 2008. This program will not reimburse for previously incurred hotel expenses. Applicants are responsible for their own meals and for any lodging costs above the authorized allowance.

Because of the high number of calls FEMA is receiving, applicants should expect long wait times and consider calling during non-peak hours. The hotline is open 24 hours. Applicants are strongly encouraged to register online if at all possible. Home inspections do not need to be completed before applying. *FEMA September 15th press release*

Prescription Assistance Programs

EPAP – Ike Activation

HHS Secretary Mike Leavitt announced up to \$2 million in individual assistance for victims of Hurricane Ike from affected counties in Texas, through a new Emergency Prescription Assistance Program (EPAP) administered by the Centers for Medicare and Medicaid Services (CMS).

The program provides a way for pharmacies to process claims for prescription medications and certain durable medical equipment items for individuals who do not have any form of health insurance policy and who are from the Texas emergency area.

Claims for individuals with private insurance, such as employer sponsors coverage or an individual health policy, are not eligible for payment under the EPAP. Nor are claims for individuals with public insurance, such as Medicare or Medicaid.

EPAP covers one-time, 30-day supplies of medication and certain medical equipment such as canes, walkers, wheelchairs and diabetic supplies.

With a written prescription, eligible individuals may receive assistance for essential pharmaceutical and durable medical equipment lost as a direct result of Ike. The supply can be used to treat an acute condition and to replace maintenance prescription drugs or medical equipment.

To assist in the determination of eligibility, pharmacies must check at the point of sale for other forms of health insurance coverage. Only claims with a date of service between September 12 and September 22, 2008 are eligible for processing under the EPAP Ike Activation at this time.

Eligible individuals must have a new prescription from a licensed health care practitioner, a current prescription bottle, a prescription phoned in by a licensed health practitioner, or proof of an existing prescription in order to receive a prescription fill and/ or certain medical equipment.

Pharmacies must dispense the generic form of medication unless otherwise indicated as brand medically necessary by the licensed health care practitioner.

The HHS website is featuring a link to public health and safety information specifically related to hurricanes at www.hhs.gov/hurricane. The EPAP-Ike Activation can be accessed at www.cms.hhs.gov/Emergency/Downloads/EPAP_PublicComm_Ike.pdf.
